## LOCATION

Malanje Province,  
Cambundi Catembo  
Municipality;

## CLIMATE & VEGETATION

Humid subtropical;  
Savanna-type forests  
and along the valleys  
by a very dense forest.

## POTENTIAL

Work carried out to identify  
secondary deposits;

Located within the Lucapa  
graben, Cuango basin, a good  
diamond collector;

Intense mining activities taking  
place in the surrounding area.
